BOOK PARADE

WONDER YEARS TO GRADE IV

TSGE celebrates love for literacy by having an annual character parade in the month of September.

Each learner chooses their favourite book and dresses up as their favorite book character for the parade. This year we had a young author Paulomi in Grade VII from ST Mary's school Khoparkhairne visiting our school who addressed and inspired our young learners the importance of reading. They even had a question answer session with the young author.

SCI-PI DAY

The Sci π quiz, which was conducted on 3rd Sept 2023, was an exciting event that brought together Science and Math with an opportunity to explore interconnection between science and math.

During the event, The learners from Grade I to A levels, got to participate in interactive activities, experiments, and presentations in the form of a quiz that was designed to spark learners interest and engage them in hands-on learning. They found it fascinating to see how science and math can be used to solve real-world problems and how they are interconnected.

Moreover, the Sci π quiz helped the learners to cultivate critical thinking, problem-solving, and analytical skills, which are essential in both science and math fields. The event left the learners inspired to pursue a career in a STEM-related field.
