English Enhancement Fun Activities

The Grade 5 learners engaged in lively games to reinforce their English skills, turning revision into an enjoyable experience. Through "Hit me with a gun", they eagerly hunted for nouns, verbs, and adjectives hidden in texts, sharpening their understanding of grammar. The bowling alley tournaments challenged them to craft words and expand their vocabulary while competing with friends. Roll a die brought laughter as they acted out idioms and expressions, enhancing comprehension in a playful manner. Ballonminton sessions encouraged creativity as they illustrated vocabulary words, reinforcing visual associations with meanings. With these engaging activities, learning English became an exciting adventure for all participants.

Smile Foundation

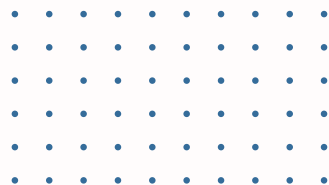

It is truly an honor for TSGE school to have had the opportunity to host the Smile Foundation and facilitate enlightening session for our students. During such engaging interactions, our learners get exposed to a range of important social causes and value systems, inspiring them to recognize the significance of maturing into conscientious citizens of our nation. Encouraging the youth to become the architects of positive change, the sessions aimed to instill a sense of responsibility towards society. As a testament to their newfound understanding and empathy, the students generously contributed donations towards noble causes, embodying the spirit of compassion and altruism. The experience served as a catalyst for our students to embrace their roles as future change-makers, equipped with the values and determination to make a difference in the world

Read aloud Day

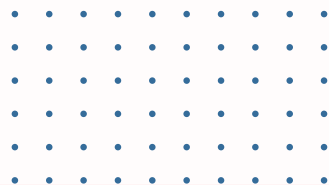

World Read Aloud Day is a time for all of us to unite around the joy of sharing stories, reveling in language, words, and sounds, and creating an inclusive world of possibility that everyone can join into &- Pam Allyn, creator of World Read Aloud Day

Our school set aside time in the classrooms on February 8, 2024, to honour and celebrate the importance of reading and exchanging stories, as well as to broaden the definition of global literacy & World Read Aloud Day celebrates the power, magic, and influence of the read aloud for children and teenagers, & as World Read Aloud Day creator Pam Allyn reminds us. Reading aloud fosters a shared enjoyment of reading while enhancing vocabulary, fluency, and endurance.

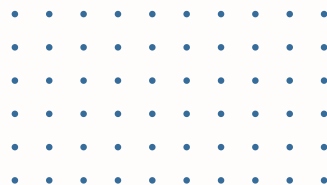

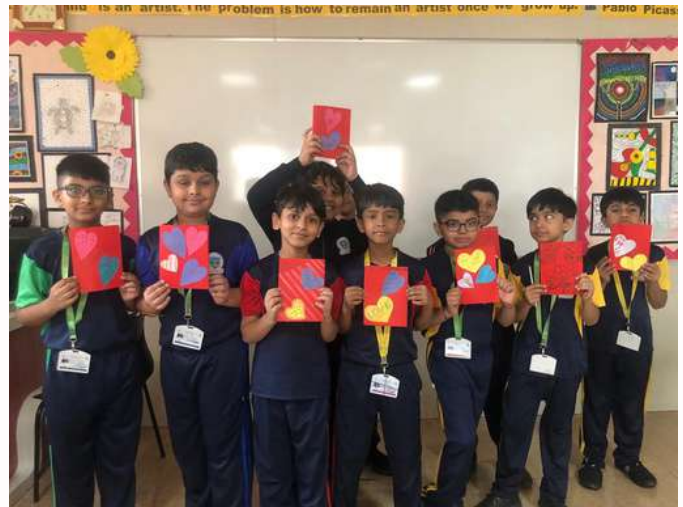

Pajama Party

Catch a glimpse of the excitement from our unforgettable pajama party at Thakur School of Global Education! Laughter, snacks, and good times aplenty, we've got memories to cherish!

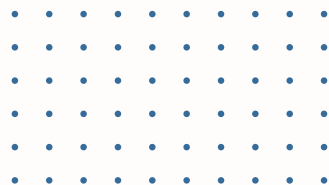

Valentines Day

Love is in the air! From heartfelt moments to joyous celebrations, we embraced the spirit of love this Valentine's Day! It was a celebration of love, friendship, and togetherness!

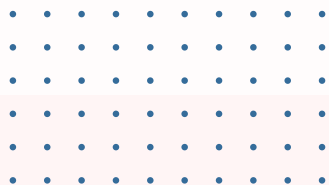

Global Perspective

Through collaborative efforts grounded in a global perspective, third-grade learners orchestrated the creation of a poster delineating the components of a nutritious and balanced diet. By discerning the major food groups and delineating the appropriate foods within each, they exemplified their commitment to promoting holistic well-being and fostering healthy lifestyle habits.

Outdoor Picnic - Tic Tac Tot - Prep I to Grade IV

The school picnic at Bird Park and Tic-Tac-Tot Play Area served as a memorable and enriching experience for our students. It provided them with opportunities for experiential learning, socialization, and relaxation in a natural setting. Such outings play a crucial role in holistic education, complementing academic learning with real-world experiences and fostering the overall development of students.

Eye Check up

Good vision is crucial for the academic success and early detection of eye problems prevent further complications. Keeping this in mind TSGE organised a comprehensive eye Check- up camp for students of WY to Gr IX in collaboration with Ms Kajal Vishwakarma, an Optometrist, on 21 st and 22nd Feb 2024.

The students with various eye defects were identified and given proper guidance for the further tests and treatments

Insects hands on activities

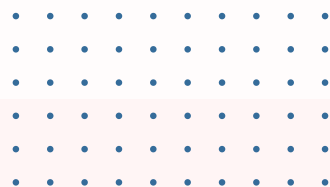

Nursery learners at TSGE are engaging in a creative and educational activity that helps develop their imagination, logical thinking, and fine motor skills. By assembling pieces together to form a picture of an insect, these young minds are not only having fun but also enhancing their cognitive abilities. This hands-on approach is a fantastic way for children to learn about bugs and insects while honing their problem-solving skills in a playful manner. Such activities not only foster a love for learning but also encourage teamwork and social interaction among the learners, creating a well-rounded educational experience.

Nursery Swimming Activity

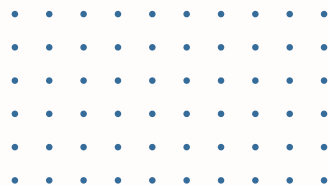

Swimming is indeed a fantastic form of exercise that offers numerous benefits for individuals of all ages. At TSGE, incorporating swimming into the school curriculum is a commendable approach to promoting holistic development among learners. By introducing swimming at an early age, such as with nursery learners, you are not only helping them build physical strength and endurance but also instilling valuable life skills.

For nursery learners, the step-by-step approach in building water confidence is crucial in helping them overcome any fear or hesitation they may have towards water. Through gradual progression and supportive guidance, these young learners can develop a sense of comfort and safety in the water, paving the way for a lifetime of enjoyment and proficiency in swimming. Additionally, by integrating swimming into the curriculum, TSGE is not just focusing on physical health but also nurturing character development, resilience, and the establishment of healthy routines that can benefit learners in various aspects of their lives.

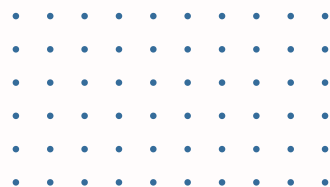

Prep II 3D Activity

Unlocking the power of reflection, our learners engaged in a class activity to create a thoughtful poster. The focus was on imparting guidance, and each drawing serves as a unique expression of their understanding. Through this artistic endeavor, they not only showcase creativity but also demonstrate the ability to reflect on ways to welcome and guide new classmates into the class community. A beautiful blend of art and reflection in action at TSGE!

Vidhaan's achievements in Crest Olympiad

Vidhaan excelled in Math, English, and Science in the Crest Olympiad due to his problem-solving skills, language proficiency, and scientific understanding. His achievements showcase his well-rounded academic abilities at TSGE and potential for success in future. Many Congratulations to Vidhaan!

Yohan MARRS 3rd place in State Spelling Bee

We are happy to inform you that our learner Yohan Joshi has received 3rd place in MARRS Spelling Bee competition on 17th February in Category 1 level.

We are very pleased to announce that Yohan Joshi has received 3rd place in MARRS Spelling Bee competition on in Category 1 level. We congratulate him for this amazing achievement.

Digraph words

At TSGE, tricky concepts like digraphs can be easily grasped through engaging activities. The Prep I learners had fun participating in the activity. It's a fantastic way to visually understand and strengthen the "sh" digraph!
